Rajiv Gandhi International Airport

World-class and Futuristic

Rajiv Gandhi International Airport, India's first Greenfield Airport has been developed through a Public Private Partnership (PPP) initiative. The project partners are GMR Group, Malaysia Airports, Government of Telangana and Airports Authority of India (AAI).

The airport is spread over an area of 5,495 acres at Shamshabad. The terminal building is designed to handle 12 million passengers and the cargo terminal has a capacity of 150,000 metric tonnes per annum.

The master plan caters for the ultimate capacity of 40 million passengers and 1.5 million tonnes of cargo per annum.

ABOUT US

The Air Cargo Terminal at Rajiv Gandhi International Airport was commissioned in 2008. It is India's first integrated cargo terminal to have both domestic and international facilities under one seamless roof.

With a built-in area of 14,330 Sq meters, the Air Cargo Terminal is a smart modular building with a capacity to handle cargo throughput of 150,000 MT annually. The building has a dedicated temperature controlled facility called Pharma Zone. The terminal also boasts a dedicated Cargo Apron (Code-F A380) facility for handling regular freighter operations as well as charters.

- Have flexibility in dealing
- Ensure Cost efficient – competitive operation
- Stay compliant to all legal requirements
- Commenced Customs Bonded Trucking operations at Nagpur, Chennai, Goa and Vizag

PHARMA ZONE

Pharmaceutical Cold Storage Facility

Hyderabad, the hub for pharmaceutical manufacturing has seen various companies shipping Pharma products to various parts of the world. We at RGIA continue to invest in the technology that allows us to provide the most efficient product for the development of the export industry in the region. In doing so, the company strengthens its leadership in the transportation of cargo between Hyderabad and rest of the world and, more specifically, at RGIA, Hyderabad, which is the main gateway to the pharmaceutical manufacturing hub of the country. World over various lifesaving medications and critical ingredients from the Pharmaceutical industry require appropriate storage during manufacturing, transportation and at transit points as well as in local pharmacies. To support the growing local industry which now has strong global footprints, we as the logistics enablers have to extend accurate and temperature controlled care while handling pharmaceutical products. Towards this endeavor, we have created an exclusive cold storage having an area of 1400 sq.m for pharmaceutical products at our Cargo Terminal.

Key Features of Pharma Zone

- Dedicated temperature - controlled truck docks for acceptance
- Floor level weighing machines at Acceptance Area
- Dedicated temperature-controlled area for Customs examination
- Dedicated CCTV coverage in Pharma Zone
- Racking system for storage of cargo to provide for examination in non-sterile area
- Modern, high capacity racking system
- Separate area earmarked for examination and forklift movement
- Ball mat system for built-up ULD movement
- Weighting of Unitized ULD's
- Dedicated zones with 02 to 08 degrees & 15 to 25 degrees in examination and sterile area for built-up ULDs
- FDA approved Data loggers with digital storage in all the key areas – features include SMS & email alerts and audible alarms fitted throughout

Business Opportunities in a World-class GMR International Free Trade Zone

at

HYDERABAD RAJIV GANDHI
INTERNATIONAL AIRPORT

G M R I N T E R N A T I O N A L F R E E T R A D E Z O N E

••> Efficient Business Environment without Barriers

••> Smooth Cross border Trade

••> Duty and Tax Benefits

••> Value Added Services

••> Seamless Distribution Centre

••> World Class Infrastructure and Amenities

••> Warehousing and Distribution

GMR International Free Trade Zone (GIFTZ)

Free Trade Zone allows activities related to Trading, Value addition (such as Repair & Return), Packaging, Storage, and Logistics & Distribution.

Opportunities at GIFTZ

Trading

GIFTZ entails re-export re-sale and re-invoice of goods without any restriction. The goods can also be traded in Domestic Tariff Area (DTA)/ local sales by payment of custom duties as applicable at the time of sale.

Distribution

The GIFTZ will provide an opportunity for seamless international distribution by re export of commodities with facilities of sorting grading, value added services etc.

Value addition

Packing or re-packing without processing and labeling as per customer or marketing requirements will be undertaken under GIFTZ.

Assembling

Assembly of complete knockdown and semi knockdown kits.

Warehousing

The facilities provided at GIFTZ would help logistics companies to warehouse their commodities for both short and long term without impact on import duty.

To foster and boost exports, GMR Hyderabad International Airport Limited as a company & developer established airport based multi-product 250 acres SEZ. Currently we have dedicated 20 acres as FTZ inside the SEZ. This is the only Airport-based FTZ in India. The fact that the FTZ is inside the airport makes it unique which will bring down the transportation costs and reduce the turnaround time for movement of goods.

Primary benefits of exclusive airport based FTZ at RGIA:

- We can construct customized warehouse to meet clients specifications and requirements
- Highly secured and safe zone for business operations as it lies in the airport premises
- Close proximity to world class Cargo terminal infrastructure & services for logistics facilitation
- RGIA has been notified for 24x7 Customs Operations for seamless clearances

Anchor clients already onboard

Hyderabad - Strategic Location

We look forward to being of service to you...
